## DETAILED ACTION

### *Response to Amendment*

1. This communication is in response to applicant's amendment dated September 6, 2007. The previous objections to the title and abstract have been withdrawn because the applicant amended the corresponding sections. The applicant amended claims 1 and 3 and cancelled claims 2, 4, 6, and 8.

### *Allowable Subject Matter*

2. Claims 1, 3, 5, and 7 are allowed.

3. The following is an examiner's statement of reasons for allowance:

4. Regarding **claim 1**, the art of record, specifically Shaw et al. (US Patent 6,363,342) and Miller et al. (US Patent 5,896,321), individually or combined do not teach or fairly suggest the following limitations in combination with the others found in independent claim 1:

pronunciation symbol information indicating a relationship between a predetermined alphabet and a pronunciation symbol that starts from the predetermined alphabet;

associative pronunciation symbol information indicating a relationship between a predetermined alphabet and a pronunciation symbol when the predetermined alphabet forms a part of an arbitrary English notation;

extracting pronunciation symbols corresponding to the alphabet inputted by a user from the pronunciation symbol information if the input mode is the first input mode and from the associative pronunciation symbol information if the input mode is the second input mode.

5. Regarding **claim 3**, the art of record, specifically Shaw et al. (US Patent 6,363,342) and Miller et al. (US Patent 5,896,321), individually or combined do not teach or fairly suggest the following limitations in combination with the others found in independent claim 3:

extracting pronunciation symbols corresponding to an alphabet inputted by a user from pronunciation symbol information indicating a relationship between a predetermined alphabet and a pronunciation symbol that starts from the predetermined alphabet if the input mode is the first input mode, and from associative pronunciation symbol information indicating a relationship between a predetermined alphabet and a pronunciation symbol when the predetermined alphabet forms a part of an arbitrary English notation if the input mode is the second mode.

6. **Claims 5 and 7** are allowed as they contain the same claim limitations as claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
